Over the past 8 weeks our team has been focused on answering:

How should Louisville Metro Government implement AI to *improve service delivery*, *response time*, and to be *proactive instead of reactive* as an organization?

Our team met with. . .

21

Metro departments
over a 6 week period.

We identified over **250** individual pain points and areas for AI implementation.

And learned a lot about government in the process!

AI COMMUNITY OF PRACTICE

WHAT IS IT?

A monthly, peer-driven forum that brings people together to deepen their knowledge and expertise on a subject matter.

WHY DO IT?

Provide a space for AI users — new and advanced — to learn about AI, share ideas, and voice concerns in a low-stakes environment.
